BRAIN RESEARCH BULLETIN

Editor-in-Chief

MATTHEW J. WAYNER

Brain Research Laboratory, Syracuse University, 601 University Avenue, Syracuse, N.Y. 13210, U.S.A.

Book Review Editor

PETER J. MORGANE, Worcester Foundation for Experimental Biology, 222 Maple Avenue, Shrewsbury, MA 01545

Editors

ANDERS BJÖRKLUND, Department of Histology, University of Lund, Biskopsgatan 5, S-223 62 Lund, Sweden

FLOYD E. BLOOM, Director, A. V. Davis Center for Behavioral Neurobiology, The Salk Institute, P.O. Box 85800, San Diego, CA 92138

HECTOR BRUST-CARMONA, Departamento de Fisiologia, Facultad de Medicina, Ciudad Universitaria, Mexico 20, D.F., Mexico

G. BURNSTOCK, Department of Anatomy and Embryology, University College London, Gower Street, London, WC1E 6BT, England

DAVID H. COHEN, Department of Physiology, University of Virginia, School of Medicine, Charlottesville, VA 22903

DAVID H. COY, School of Medicine, Tulane University, New Orleans, LA 70112 and Veterans Administration Hospital, 1601 Perdido Street, New Orleans LA 70146

W. H. GISPEN, Interfacultair Instituut voor Moleculaire Biologie, Rijksuniversiteit Utrecht, Padualaan 8, Utrecht 2506, The Netherlands

HANS C. FIBIGER, Department of Psychiatry, University of British Columbia, Vancouver, B.C. V6T 1W5, Canada

S. HAGIWARA, Department of Physiology, School of Medicine, The Center for the Health Sciences, Los Angeles, CA 90024

GLENN I. HATTON, Department of Psychology, Michigan State University, East Lansing, MI 48824

TOMAS HÖKFELT, Department of Histology, Karolinska Institutet, S-104 01 Stockholm 60, Sweden

ABBA J. KASTIN, Chief, Endocrinology Section, Veterans Administration Hospital, 1601 Perdido Street, New Orleans, LA 70146 and Department of Medicine, Tulane University, School of Medicine, New Orleans, LA 70112

KIYOSHI KATAOKA, University of Ehime, School of Medicine, Department of Physiology, Onsengun, Ehime 791-02, Japan

JOHN S. KELLY, Department of Pharmacology, Jenner Wing, St. George's Hospital Medical School, University of London, Cranmer Terrace, London S.W. 17 ORE, England

STEPHEN T. KITAI, Professor and Charirman, Department of Anatomy, Michigan State University, A519 East Fee Hall, East Lansing, MI 48824

KISOU KUBOTA, Primate Research Institute, Department of Neurophysiology, Kyoto University, Inuyama City, Aichi 484, Japan

JAMES M. LIPTON, Department of Physiology, University of Texas, Health Science Center, 5323 Harry Hines Boulevard, Dallas, TX 75235

GARY LYNCH, Department of Psychobiology, University of California, Irvine, CA 92717

JEFFERY F. MCKELVY, Western Psychiatric Institute and Clinic, Departments of Psychiatry and Biochemistry, University of Pittsburgh School of Medicine, 3811 O'Hara Street, Pittsburgh, PA 15261

ROBERT D. MYERS, Departments of Psychiatry and Pharmacology, University of North Carolina School of Medicine, Chapel Hill, NC 27514

YUTAKA OOMURA, Department of Physiology, Faculty of Medicine, Kyushu University, Fukuoka 812, Japan

MIKLÓS PALKOVITS, 1st Department of Anatomy, Semmelweis University Medical School, 1450 Tuzolto utca 58, Budapest IX, Hungary

PASKO RAKIC, Section of Neuroanatomy, School of Medicine, Yale University, 333 Cedar Street, New Haven, CT 06510

HANS-PETER SCHUBERT, Max-Planck Institute for Psychiatry, Kraepelinstr. 2, D-8000 Munich 40, German Federal Republic

HIROSHI SHIMAZU, Brain Research Institute, School of Medicine, University of Tokyo, 7-3-1 Hongo, Bunkyo-Ku, Tokyo, Japan

GEORGE SINGER, Department of psychology, la Trobe University, Bundoora, Victoria 3083, Australia

I. STEELE RUSSELL, MRC Unit on Neural Mechanisms of Behaviour, 3 Malet Place, London, WC1E 7JG, England

JEROME SUTIN, Department of Anatomy, Emory University, Atlanta, GA 30322

VIRGINIA M. TENNYSON, Department of Neurology, Columbia University, CPS, 630 West 168th Street, New York, NY 10032

TIMOTHY TYLER, Department of Neurobiology, Northeastern Ohio University, College of Medicine, Rootstown, OH 44272

C. D. WOODY, Departments of Anatomy and Psychiatry, UCLA, The Center for Health Sciences, Los Angeles, CA 90024

MANFRED KLEE, Max Planck Institute for Brain Research, Department of Neurobiology, 6000 Frankfurt/M. 71, Deutschordenstrasse 46, West Germany

BRAIN RESEARCH BULLETIN

VOLUME 4 NUMBER 1 JANUARY/FEBRUARY 1979

CONTENTS

Effects of midbrain raphe lesions or systemic *p*-chlorophenylalanine on the development of kindled seizures in rats. RACINE, R. and D. V. COSCINA 1

The effects of stimulation of trigeminal sensory afferents upon caudate units in cats. LIDSKY, T. I., T. LABUSZEWSKI, M. J. AVITABLE and J. H. ROBINSON. 9

Hyperthermic effect of prostacyclin injected into the third cerebral ventricle of the cat. CLARK, W. G. and J. M. LIPTON 15

Reversible effects of olfactory nerve section on behavior and biochemistry in mice. HARDING, J. W. and J. W. WRIGHT 17

Central thermosensitivity during fever produced by intra-PO/AH and intravenous injections of pyrogen. LIPTON, J. M. and J. I. KENNEDY 23

Note on the distribution of glial cells in the molecular layer of the dentate gyrus. KISHI, K., B. B. STANFIELD and W. M. COWAN. 35

Ascorbate blocks amphetamine-induced turning behavior in rats with unilateral nigro-striatal lesions. TOLBERT, L. C., T. N. THOMAS, L. D. MIDDAUGH and J. W. ZEMP 43

Glycyl-glycine hydrolase of rat brain: Distribution and role in cleavage of glycine-rich oligopeptides. STERN, F. and N. MARKS 49

Regional distribution of immunoreactive neurotensin in monkey brain. KATAOKA, K., N. MIZUNO and L. A. FROHMAN 57

Further characterization of fat diet-induced changes in responsiveness to estrogen and glucose. YOUNG, J. K., D. M. NANCE, R. A. GORSKI and J. H. GORDON 61

Effects of diet upon hypothalamic vulnerability to goldthioglucose in male mice. YOUNG, J. K., D. M. NANCE and R. A. GORSKI 69

Feedback loop between locus coeruleus and spinal trigeminal nucleus neurons responding to tooth pulp stimulation in the rat. IGARASHI, S., M. SASA and S. TAKAORI 75

Effects of septal lesions and chronic estrogen treatment on dopamine, GABA and lordosis behavior in male rats. GORDON, J. H., D. M. NANCE, C. J. WALLIS and R. A. GORSKI 85

Influence of thalamic cooling on sensory responses in association cortex. O'BRIEN, J. H. and S. M. ROSENBLUM 91

THEORETICAL REVIEW

Light and electron microscopic identification of monoaminergic terminals in the central nervous system. ZÁBORSZKY, L., C. LÉRÁNTH and M. PALKOVITS 99

BRIEF COMMUNICATIONS

Isotherm of alcohol-cooled cryoprobe. QUINN, K. J. and J. H. O'BRIEN 119

Modification of a Kowa RC-2 fundus camera for self-photography without the use of mydriatics. PHILPOTT, D. E., P. F. BAILEY, G. HARRISON and C. TURNBILL 123

A reliable Golgi-Kopsch modification. RILEY, J. N. 127

Penile reflexes and copulatory behavior in male rats following lesions in the bed nucleus of the stria terminalis. VALCOURT, R. J. and B. D. SACHS 131

Amplitude and fall-time discrimination of unit spike activity using TTL. HIDDEN, N. and D. J. O'BOYLE 135

Electrically quiet temperature controller. YEANDLE, S. 139

Self-centering head holder system for small animal stereotaxy. MARCHAND, E. R. and J. N. RILEY 141

MEETING REPORT

International Seminar on Structure and Function of Receptor and Ion Channels in Biological Membranes Okazaki, Japan, 27–29 August, 1978 145

Ion movements in endplate channels. ADAMS, P. R. 147

Conductive properties of the calcium channel in neuronal membranes. AKAIKE, N., S. YASUI, K. S. LEE and A. M. BROWN 148

Interchangeable association of neurotransmitter receptors with several ionophores. CARPENTER, D. O. 149

Pore size analysis of an electrically inexcitable membrane. EDWARDS, C. 153

Multi-site, multi-barrier, multi-occupancy models for the electrical behavior of single filing channels like those of gramicidin. HÄGGLUND, J., B. ENOS and G. EISENMAN 154

Properties of membrane channels for the anomalous rectification in starfish egg. HAGIWARA, S. 159

K channels in excitable cells as multi-ion pores. HILLE, B. and W. SCHWARZ 159

TEA and 4-AP affect separate potassium and calcium channels differently in Aplysia S and F cells. KLEE, M. R. 162

Physicochemical aspects in chemoreceptive membranes. KOBATAKE, Y. 166

Kinetics of calcium inward current activation. KOSTYUK, P. G., O. A. KRISHTAL, V. I. PIDOPLICHKO and YU. A. SHAKHOVALOV 169

A model for synaptic transmission. LLINAS, R., I. Z. STEINBERG and K. WALTON 170

Effects of dimethyldiethanolammonium on the ionic permeability of chemically modulated channels in the frog endplate and the *Onchidium* neuron. MAENO, T., M. SAWADA and K. ENOMOTO 173

Membranes, channels and gates. MUELLER, P. 176

GABA receptors and ionic channels in *Onchidium* neuron. OOMURA, Y., J. MARUHASHI, N. SHIMIZU and K. MASAKATSU 178

Sodium channels in muscle and nerve. RITCHIE, J. M. 181

Effects of various enzymes and chemical modification reagents on acetylcholine-induced responses of the excitatory and inhibitory types. SATO, M., J. MARUHASHI and H. YAI 184

Some properties of ionic channels in the egg cell membrane. TAKAHASHI, K. 186

Physiological role of histidine residues in the inner surface membrane of the squid giant axon. TAKENAKA, T., T. YOSHIOKA, H. HORIE, H. INOUE and K. INOMATA 187

Inhibitory postsynaptic current in the crayfish muscle. TAKEUCHI, A. 189

Chemical and electrical receptors on the surface of squid giant axons. TASAKI, I. 190

Multilayered structure of the squid axon membrane revealed by conductance measurements. WATANABE, A. and M. NAGANO 191

Intracellular Ca induced spike in internally perfused squid axons. YAMAGISHI, S. 195

Chemical modification of membrane proteins in the squid giant axon. YOSHIOKA, T., T. TAKENAKA, H. HORIE, H. INOUE, K. INOMATA and H. HORI 196

Excitable ion channels in a calcium type muscle membrane of the crayfish. ZACHAR, J. and M. HENČEK . 199

BRAIN RESEARCH BULLETIN

VOLUME 4 NUMBER 2 MARCH/APRIL 1979

CONTENTS

Midbrain central gray: LHRH infusion enhances lordotic behavior in estrogen-primed ovariectomized rats. RISKIND, P. and R. L. MOSS 203

Effect of neonatal malnutrition on leucine renewal and protein biosynthesis in neurons of rats. SANTOS, R. C. and T. MORAES E. SANTOS 207

Plasma and cerebrospinal fluid α-MSH levels in the rat after hypophysectomy and stimulation of pituitary α-MSH secretion. THODY, A. J., A. A. DE ROTTE and TJ. B. VAN WIMERSMA GREIDANUS 213

Differences in norepinephrine and dopamine neurotransmitter storage systems. SANGHERA, M. K., D. C. GERMAN, R. S. KISER and P. A. SHORE 217

Monosynaptic facilitatory pathway from the hypothalamic ventromedial nucleus to the frontal cortex in the rat. OHTA, M. and Y. OOMURA 223

Inhibitory pathway from the frontal cortex to the hypothalamic ventromedial nucleus in the rat. OHTA, M. and Y. OOMURA 231

Role of limbic system in the control of hamster growth. BORER, K. T., M. E. TRULSON and L. R. KUHNS 239

Monkey pyramidal tract neurons and changes of movement parameters in visual tracking. HAMADA, I. and K. KUBOTA 249

Hypothalamic unit responses to alimentary perfusions in the anesthetised rat. MADDISON, S. and R. I. HORRELL 259

Effects of intragastric water infusion and gastric distension on hypothalamic neuronal activity. BARONE, F. C., M. J. WAYNER, C. S. WEISS and C. R. ALMLI 267

BRIEF COMMUNICATIONS

Apparatus for EEG recording and electrical stimulation of discrete brain areas in an unrestrained small animal. LAIRD, H. E., II, J. E. HERMANSEN and R. J. HUXTABLE 283

An improved simple tungsten microelectrode. VIDYASAGAR, T. R. and G. W. PERRY 285

Sodium consumption following lesions of the anteroventral third ventricle. BEALER, S. L. and A. K. JOHNSON 287

A technique for the controlled fracture of micropipette electrode tips. ROBJOHNS, S. L. and T. S. MILES 291

BOOK REVIEW

Mogenson, G. J. ***The Neurobiology of Behavior: An Introduction.*** HALL, R. D. 293

ANNOUNCEMENTS

Supplement to *Brain Research Bulletin* Volume 4, 1979. *The Anatomy of the Brain of the Bottlenose Dolphin (Tursiops truncatus). Rhinic Lobe (Rhinencephalon): The Archicortex* 295

Announcing a New Journal. *Neurobehavioral Toxicology* 296

BRAIN RESEARCH BULLETIN

VOLUME 4 NUMBER 3 MAY/JUNE 1979

CONTENTS

Effects on fever of central administration of transport inhibitors. LIPTON, J. M., J. D. WHISENANT, J. T. GEAN and C. B. TICKNOR 297

Quantitative studies of neuronal RNA on the subiculum of demented old individuals. UEMURA, E. and H. A. HARTMANN 301

Locus coeruleus and substantia nigra: Involvement in morphine-induced behavior. VAN DONGEN, P. A. M., C. L. E. BROEKKAMP and A. R. COOLS 307

Cerebellar morphology: Alterations during graft versus host disease. GRIFFIN, W. S. T., J. R. HEAD and M. F. C. PACHECO 313

Receptive fields of neurons in areas 17 and 18 of tree shrews (*Tupaia glis*). KAUFMANN, P. G. and G. G. SOMJEN 319

Influence of striate lesions on visually evoked activity in tree shrew temporal cortex. KAUFMANN, P. G., P. S. BLUM and G. G. SOMJEN 327

Removal of 14-C-palmitate during ventriculocisternal perfusion in conscious dogs in insulin-induced hypoglycemia. FRITSCHKA, E., H-J. QUABBE and J. J. SPITZER 333

The involvement of the olfactory bulbs in the regulation of gonadal and thyroidal activities of male red-winged blackbirds, exposed to short-day light regime. ROBINZON, B., Y. KATZ and J. G. ROGERS, JR. 339

Neural inputs to the prefrontal agranular insular cortex in the rat: Horseradish peroxidase study. GERFEN, C. R. and R. M. CLAVIER 347

Effect of cycloheximide on temperature regulation in rats. BARNEY, C. C., M. J. KATOVICH and M. J. FREGLY 355

Brainstem correlates of gustatory similarity in the hamster. SMITH, D. V., J. B. TRAVERS and R. L. VAN BUSKIRK 359

Septal destruction in infant rats and the ontogeny of drinking behaviors. McMULLEN, N. T. and C. R. ALMLI 373

Effects of cervical vagus nerve stimulation on hypothalamic neuronal activity. BARONE, F. C., M. J. WAYNER, H. U. AGUILAR -BATURONI and R. GUEVARA-AGUILAR 381

Intra- and interganglionic synaptic connections in the CNS of *Aplysia*. FREDMAN, S. M. and B. JAHAN-PARWAR 393

Role of interganglionic synaptic connections in the control of pedal and parapodial movements in *Aplysia*. JAHAN-PARWAR, B. and S. M. FREDMAN 407

BRIEF COMMUNICATIONS

A bipolar electrode for peripheral nerve stimulation. BARONE, F. C., M. J. WAYNER, H. U. AGUILAR-BATURONI and R. GUEVARA-AGUILAR 421

Sexual behavior and neural degeneration following hypothalamic knife cuts. PHELPS, C. P. and D. M. NANCE 423

Morphological evidence that feline SMR and human mu are analogous rhythms. KAPLAN, B. J. . 431

Tapered tungsten fine-wire microelectrode for chronic single unit recording. ROSE, J. D. and D. J. WEISHAAR 435

Simple apparatus for blocking small animal brains. BRODIE, H. A., D. W. SHUCARD and S. A. HOFFMAN 439

A minimum component AM transmitter to monitor electronic brain stimulation. AVITABLE, M. J., J. E. HARRISON and W. H. GUTSTEIN 443

Evoked potential correlates of stable inter-individual differences in rat behaviour. HARRISON-READ, P. E. 447

BOOKS RECEIVED 453

ANNOUNCEMENTS

September 2-6, 1979. Jerusalem, Israel. Seventh International Meeting of the International Society for Neurochemistry 454

November 6-10, 1979. Myrtle Beach, South Carolina. International Symposium on GABA and Other Inhibitory Neurotransmitters 455

Supplement to *Brain Research Bulletin* Volume 4, 1979. *The Anatomy of the Brain of the Bottlenose Dolphin* (Tursiops truncatus). *Rhinic Lobe (Rhinencephalon): The Archicortex* 456

Supplement to *Neuroscience and Biobehavioral Reviews* Volume 3, 1979. *Blood Supply to the Brain of the Dolphin*, Tursiops truncatus, *With Comparative Observations on Special Aspects of the Cerebrovascular Supply of Other Vertebrates* 457

Supplement to *Pharmacology Biochemistry and Behavior*, Volume 5, 1976. *The Neuropeptides, Pharmacology, Physiological Substrates and Behavioral Effects* 458

BRAIN RESEARCH BULLETIN

VOLUME 4 NUMBER 4 JULY/AUGUST 1979

CONTENTS

Long-term improvement of learning after early electrical stimulation of some central nervous structures: Is the effect structure and age-dependent? VELLEY, L. and B. CARDO 459

Histoenzymological mapping of alkaline phosphatase and 5-nucleotidase in the medulla oblongata of a microchiropteran bat (*Taphozous Melanopogon* temminck). HAFIZA, B. and P. P. SOOD 467

Effects of feedback caudate nucleus stimulation on spontaneous fast amygdaloid spindles and drive. SHUGALEV, N. P. and D. M. PSATTA 475

Mapping of sensory-responsive cells in the septal area of the rat. MERCER, L. F., JR. and N. R. REMLEY 483

Effects of midbrain raphe stimulation and lesion on EEG activity in rats. YAMAMOTO, T., S. WATANABE, R. OISHI and S. UEKI 491

Afferent projections to the self-stimulation regions of the dorsal pons, including the locus coeruleus, in the rat as demonstrated by the horseradish peroxidase technique. CLAVIER, R. M. 497

The effect of medial preoptic—anterior hypothalamic lesions on bisexual behavior of the male rat. VAN DE POLL, N. E. and H. VAN DIS 505

Lesions of the preoptic area facilitate lordosis behavior in male and female guinea pigs. RODRIGUEZ-SIERRA, J. F. and E. TERASAWA 513

Raphe projections to the locus coeruleus in the rat. MORGANE, P. J. and M. S. JACOBS ... 519

Subcellular localization of immunoreactive α-melanocyte stimulating hormone in human brain. PARKER, C. R., JR. and J. C. PORTER 535

Changes in cortical sensory responses with a cryogenic blockade of nucleus ventralis posterolateralis. O'BRIEN, J. H. and K. J. QUINN 539

Fastigial modulation of brainstem behavioral mechanisms. BERNTSON, G. G. and T. S. PAULUCCI 549

Differential hypothalamic self-stimulation behavior in Roman high-avoidance and low-avoidance rats. LIPP, H. P. 553

BRIEF COMMUNICATIONS

Influence of electrical stimulation of the substantia nigra on spontaneous activity of raphe neurons in the anesthetized rat. STERN, W. C., A. JOHNSON, J. D. BRONZINO and P. J. MORGANE 561

Determination of picogram levels of brain serotonin by a simplified liquid chromatographic electrochemical detection assay. WARSH, J. J., A. CHIU, D. D. GODSE and D. V. COSCINA ... 567

Effects of ovarian hormones on levels of luteinizing hormone in plasma and on serotonin concentrations in discrete brain nuclei. CROWLEY, W. R., T. L. O'DONOHUE, E. A. MUTH and D. M. JACOBOWITZ 571

A rapid and simple cannulation technique for repeated sampling of cerebrospinal fluid in freely moving rats. BOUMAN, H. J. and T. B. VAN WIMERSMA GREIDANUS 575

Latency distribution from orthodromic stimulation at the optic nerve, in the lateral geniculate nucleus and superior colliculus of rabbits. MOLOTCHNIKOFF, S., P. LACHAPELLE, D. RICHARD, P. L'ARCHEVEQUE and I. LESSARD 579

ANNOUNCEMENTS 583

BRAIN RESEARCH BULLETIN

VOLUME 4 NUMBER 5 SEPTEMBER/OCTOBER 1979

CONTENTS

Elevation of calcitonin immunoreactivity in the pituitary and thyroid glands of genetically obese rats (*fa/fa*). MARGULES, D. L., J. J. FLYNN, J. WALKER and C. W. COOPER 589

Distribution of norepinephrine and dopamine in cerebral cortical areas of the rat. PALKOVITS, M., L. ZÁBORSZKY, M. J. BROWNSTEIN, M. I. K. FEKETE, J. P. HERMAN and B. KANYICSKA 593

Taurine, analogues and ethanol elicited responses. MESSIHA, F. S. 603

Effects of morphine on hippocampal cells recorded *in vitro*. DEADWYLER, S. A. and J. H. ROBINSON 609

Morphine induced increases in the incorporation of ^{3}H-thymidine into brain striatal DNA. MESSING, R. B., C. DODGE, J. C. WAYMIRE, G. S. LYNCH and S. A. DEADWYLER ... 615

Cerebellar actions on cochlear microphonics and on auditory nerve action potential. VELLUTI, R. and L. CRISPINO 621

Fornix transection: Discrimination between neuropeptide effects on attention and memory. VAN WIMERSMA GREIDANUS, T. B., G. CROISET and G. A. SCHUILING .. 625

Hypothermia produced by peripheral and central injections of chlorpromazine in aged rabbits. LIPTON, J. M., J. D. WHISENANT and J. T. GEAN 631

Intracellularly studied excitability changes in coronal-pericruciate neurons following low frequency stimulation of the corticobulbar tract. TZEBELIKOS, E. and C. D. WOODY 635

Effects of damage to median raphe nucleus on ingestive behavior and wheel running activity. SHAHID SALLES, M. S., J. HEYM and W. E. GLADFELTER 643

Striatal dopamine release is altered by glucose and insulin during push-pull perfusion of the rat's caudate nucleus. MCCALEB, M. L. and R. D. MYERS 651

MIF-I and postsynaptic receptor sites for dopamine. KOSTRZEWA, R. M., J. C. HARDIN, R. L. SNELL, A. J. KASTIN, D. H. COY and F. BYMASTER 657

Operant conditioning of pontine gigantocellular units. BREEDLOVE, S. M., D. J. MCGINTY and J. M. SIEGEL 663

Depression of spontaneous and ionophore-induced transmitter release by ruthenium red at the neuromuscular junction. PERSON, R. J. and J. A. KUHN 669

BRIEF COMMUNICATION

Impairments in saline intake induced by deposit-free electrolytic lesions in the thalamic gustatory area. KOSTEN, T. and J. SCHULKIN 675

BOOK REVIEW

Brazier, M. A. B. (Ed.). *Brain Mechanisms in Learning and Memory: From the Single Neuron to Man. Vol. 4: IBRO Monogr. Ser.* HALL, R. D. 679

ABSTRACTS

International Symposium on GABA and Other Inhibitory Neurotransmitters. November 6-10, 1979. 683

BRAIN RESEARCH BULLETIN

VOLUME 4 NUMBER 6 NOVEMBER/DECEMBER 1979

CONTENTS

Multiunit activity in the mesencephalic reticular formation and septal area of freely moving newborn rat. TAMÁSY, V., L. KORÁNYI and K. LISSÁK 715

Hibernation: An opioid-dependent state? MARGULES, D. L., B. GOLDMAN and A. FINCK 721

Effects of melatonin on spontaneous and evoked neuronal activity in the mesencephalic reticular formation. PAZO, J. H. 725

Pineal vasotocin and sleep: Involvement of serotonin containing neurons. PAVEL, S. 731

The reactivity of the somesthetic S1 cortex during sleep and waking in the rat. ARNAUD, C., G. GANDOLFO and C. GOTTESMANN 735

Fever produced by intrahypothalamic pyrogen: Effect of protein synthesis inhibition by anisomycin. RUWE, W. D. and R. D. MYERS 741

Brain resistance to protein loss on restricted protein intake in weanling rats. REBERT, R. R., R. B. CHRONISTER, H. E. LONGENECKER, JR. and L. P. MERCER 747

Quantification of synaptic vesicles in hippocampus of aging rats and initial studies of possible relations to neurophysiology. LANDFIELD, P. W., C. WURTZ and J. D. LINDSEY 757

Afferent connections of the hypothalamic retrochiasmatic area in the rat. PASQUIER, D. A. and J. H. TRAMEZZANI 765

Ontogeny of lateral preoptic unit activity in rats. ALMLI, C. R. and N. T. McMULLEN 773

Effects of suprachiasmatic nucleus lesions on hypothalamic LH-releasing hormone (LHRH) content and gonadotropin secretion in the ovariectomized (OVX) female rat. SAMSON, W. K. and S. M. MCCANN 783

Failure to detect radioimmunoassayable arginine vasotocin in mammalian pineals. NEGRO-VILAR, A., F. SANCHEZ-FRANCO, M. KWIATKOWSKI and W. K. SAMSON 789

Rat brain melanin at different ages and after various treatments. KASTIN, A. J., B. KUZEMCHAK, A. V. SCHALLY and M. W. EGGERT, JR. 793

Striatal dopamine turnover and MIF-I. KOSTRZEWA, R. M., H. FUKUSHIMA, C. T. HARSTON, K. W. PERRY, R. W. FULLER and A. J. KASTIN 799

Effect of chlorobutanol on *Limulus* ventral photoreceptor latency: A model of a two component latent period. WULFF, V. J. and J. L. FAHY 803

Influence of calcium on the *Limulus* photoreceptor potential. WULFF, V. J. and J. L. FAHY .. 809

Partial voltage clamping of *Limulus* ventral photoreceptor potentials: Evidence of programmed conductance changes. WULFF, V. J., J. L. FAHY and W. J. MUELLER 819

Identification and distribution of α-melanotropin in discrete regions of the cat brain. O'DONOHUE, T. L., V. J. MASSARI, Y. TIZABI and D. M. JACOBOWITZ 829

Sagittal knife cuts in the far-lateral hypothalamus reduce sexual receptivity in female hamsters. MALSBURY, C. W., D. M. MARQUES and J. T. DAOOD 833

Quantitative demonstration of somatic synapse sprouting following dendritic deafferentation in neonatal rat interpeduncular nucleus. LENN, N. J., V. WONG and G. HAMILL 843

Noradrenergic innervation patterns in three regions of medial cortex: An immunofluorescence characterization. MORRISON, J. H., M. E. MOLLIVER, R. GRZANNA and J. T. COYLE . 849

BRIEF COMMUNICATIONS

Choline acetyltransferase activity in the cerebellum and in centers of lateral line system of teleosts. CONTESTABILE, A., P. MIGANI and G. CRISTINI 859

Technique for applying neurotropic substances onto single units in awake animals. GORDON, C. J. and J. E. HEATH 863

A new aspect of the collision test principle: Cell body distance from recording site. KUNZE, W. A. A., J. S. McKENZIE and A. P. BENDRUPS 867

Removable, conforming device for cooling the cortical surface. HUMPHREY, G. L. and S. S. ORMAN 871

ANNOUNCEMENTS 873
